# One Company

Industrial Sensors | Explosion Protection

The Factory Automation division of Pepperl+Fuchs is a technology leader in industrial sensor technology, paving the way for customers to IIoT applications with Sensorik4.0®.

In explosion protection, the core competence of the Process Automation division, Pepperl+Fuchs is a recognized pioneer and innovation driver, offering a complete portfolio for every application.

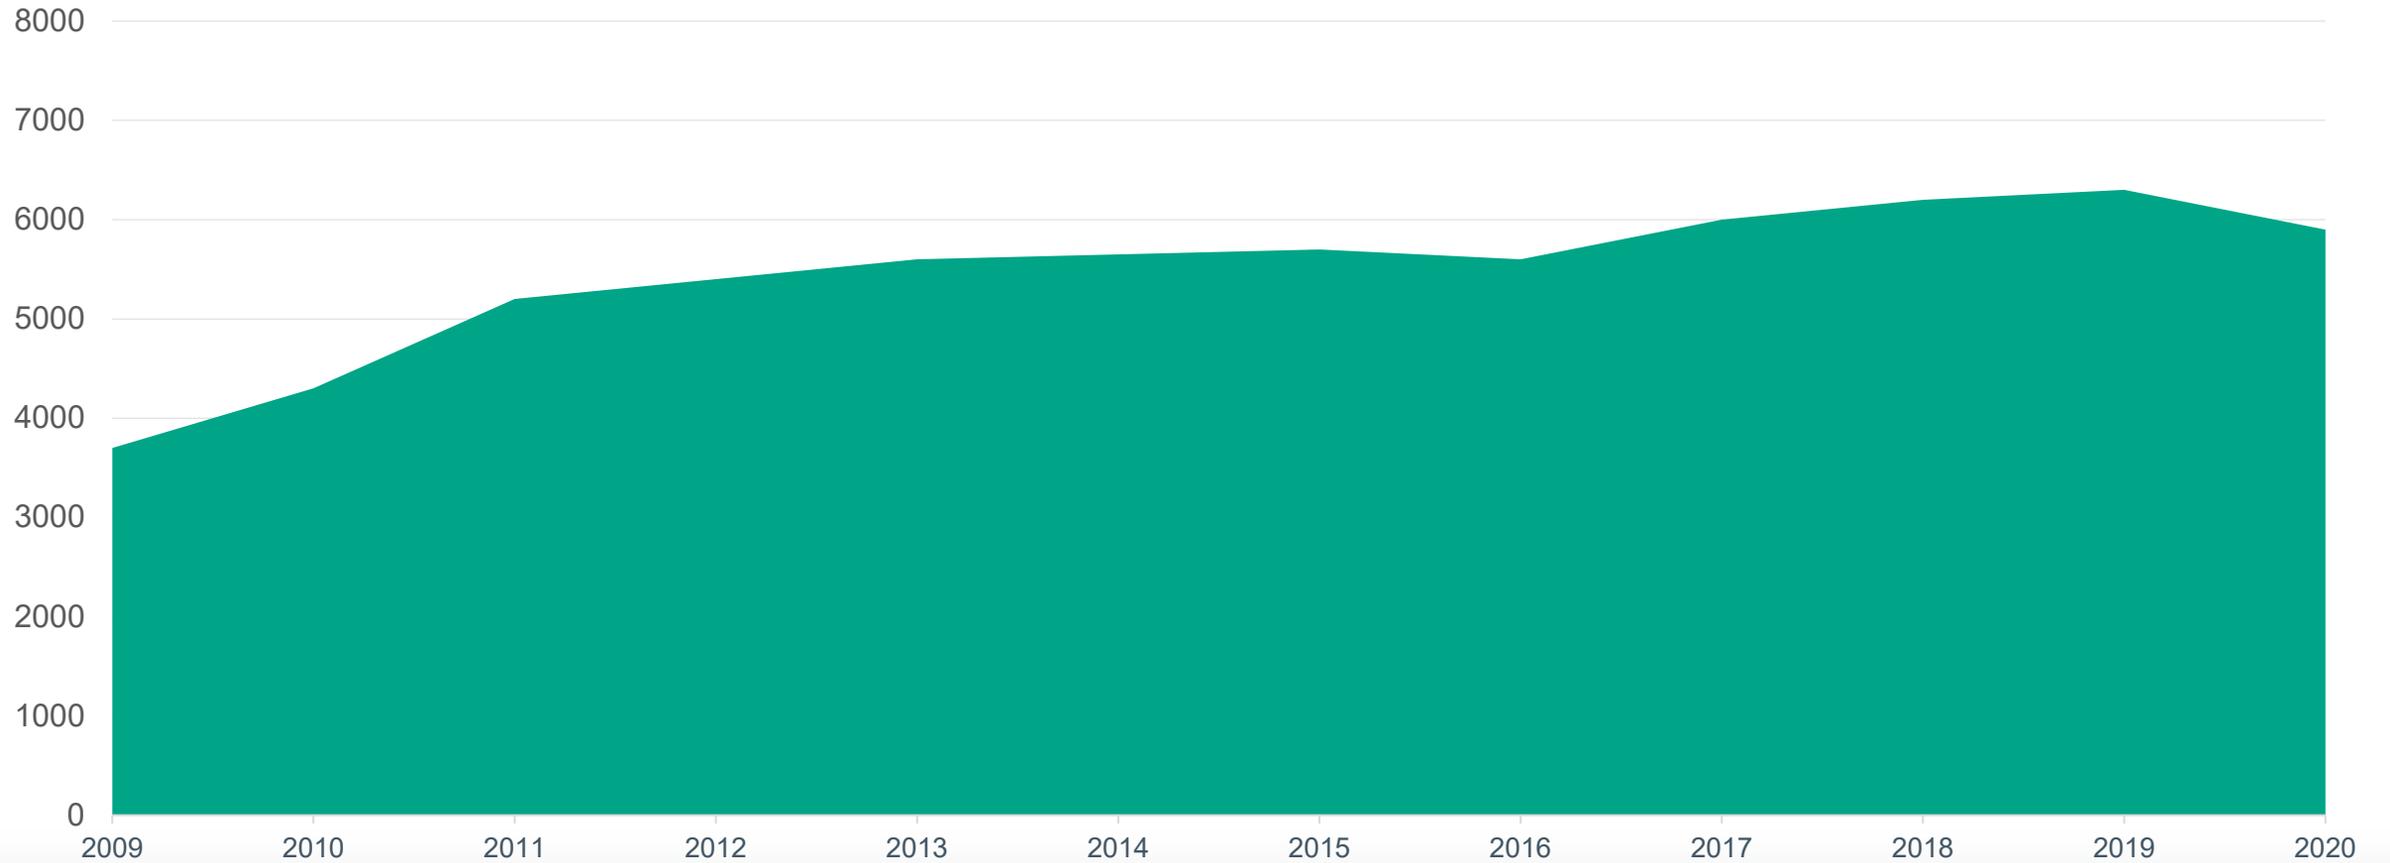

# 5,900 Employees Worldwide

Behind every success are people with ideas. Our employees guarantee that we will continue to develop and bring innovative products to the market.

## Employees

■ Number of employees

# Annual Sales of 650 Million Euros

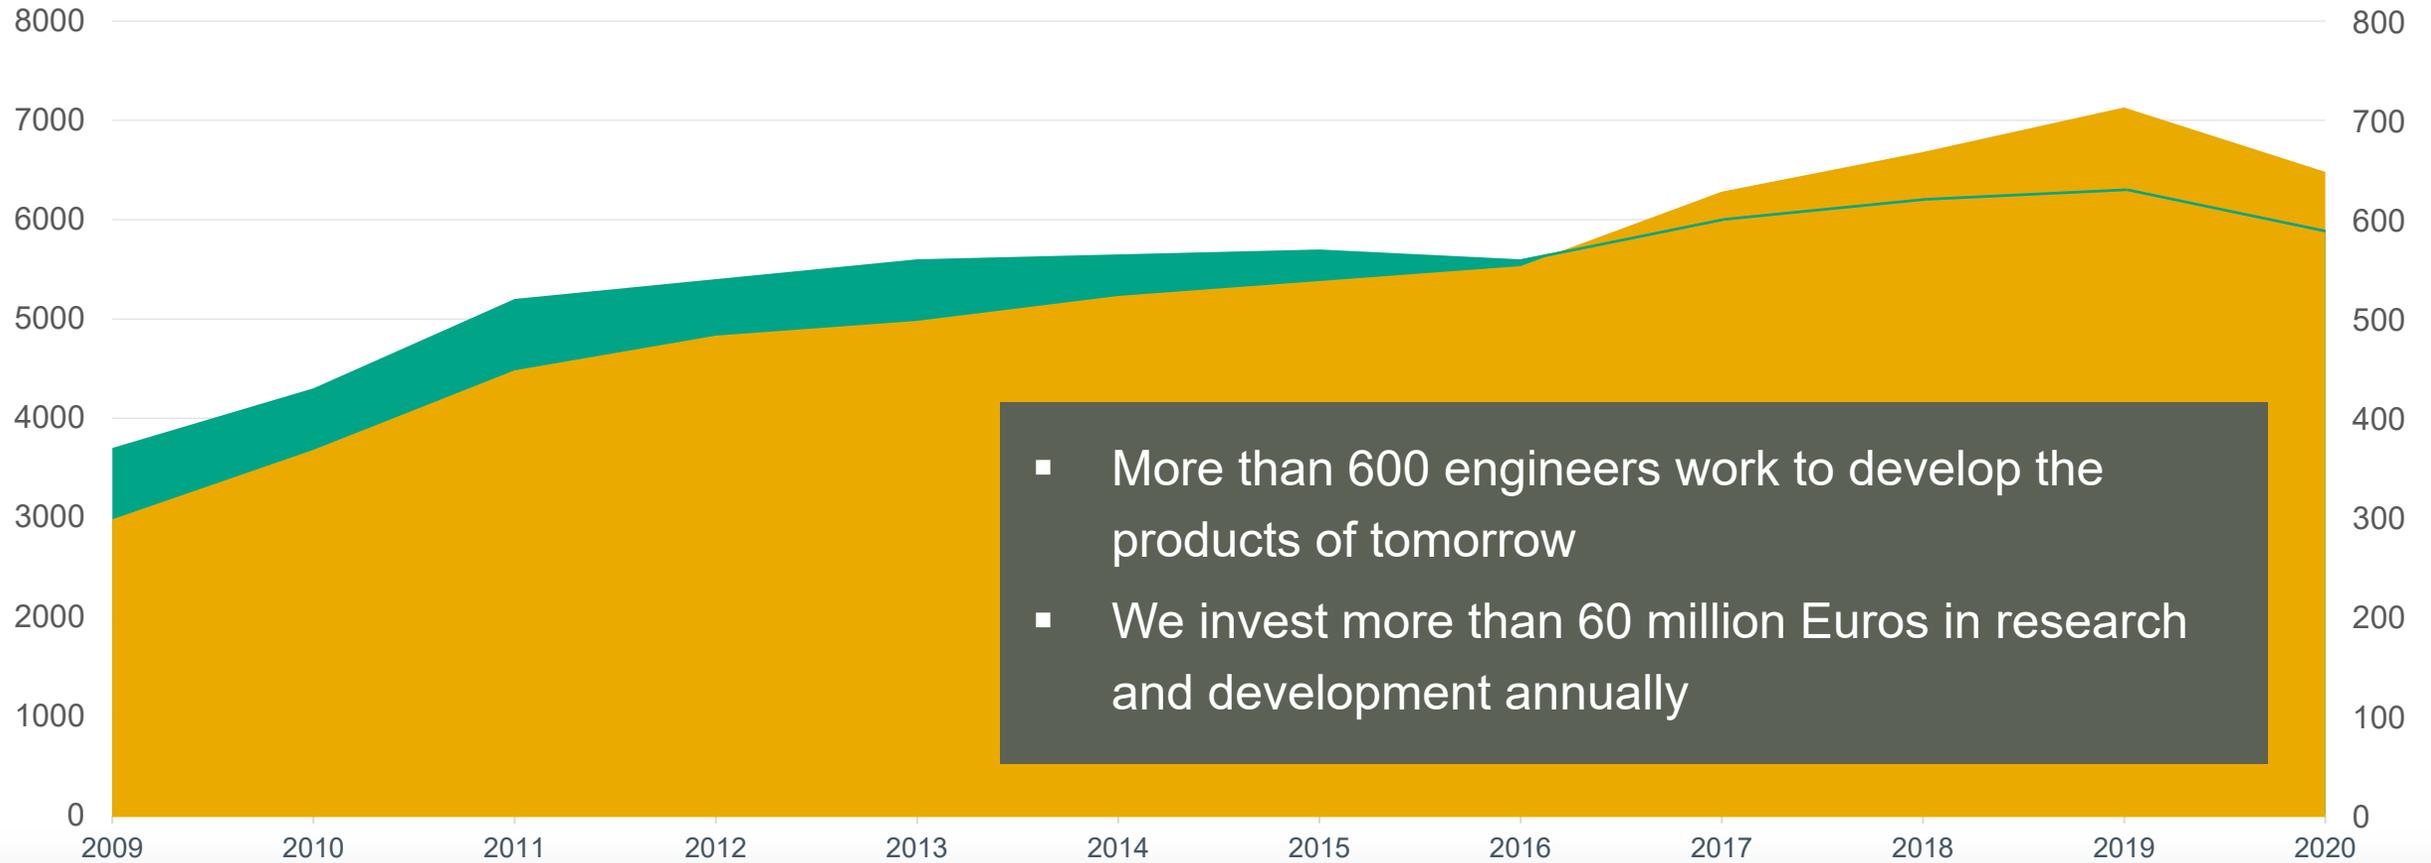

Pepperl+Fuchs always remains on track, even under difficult economic circumstances – this is proven by our stable sales figures.

## Employees

■ Number of employees

■ Sales (in Millions of Euro)

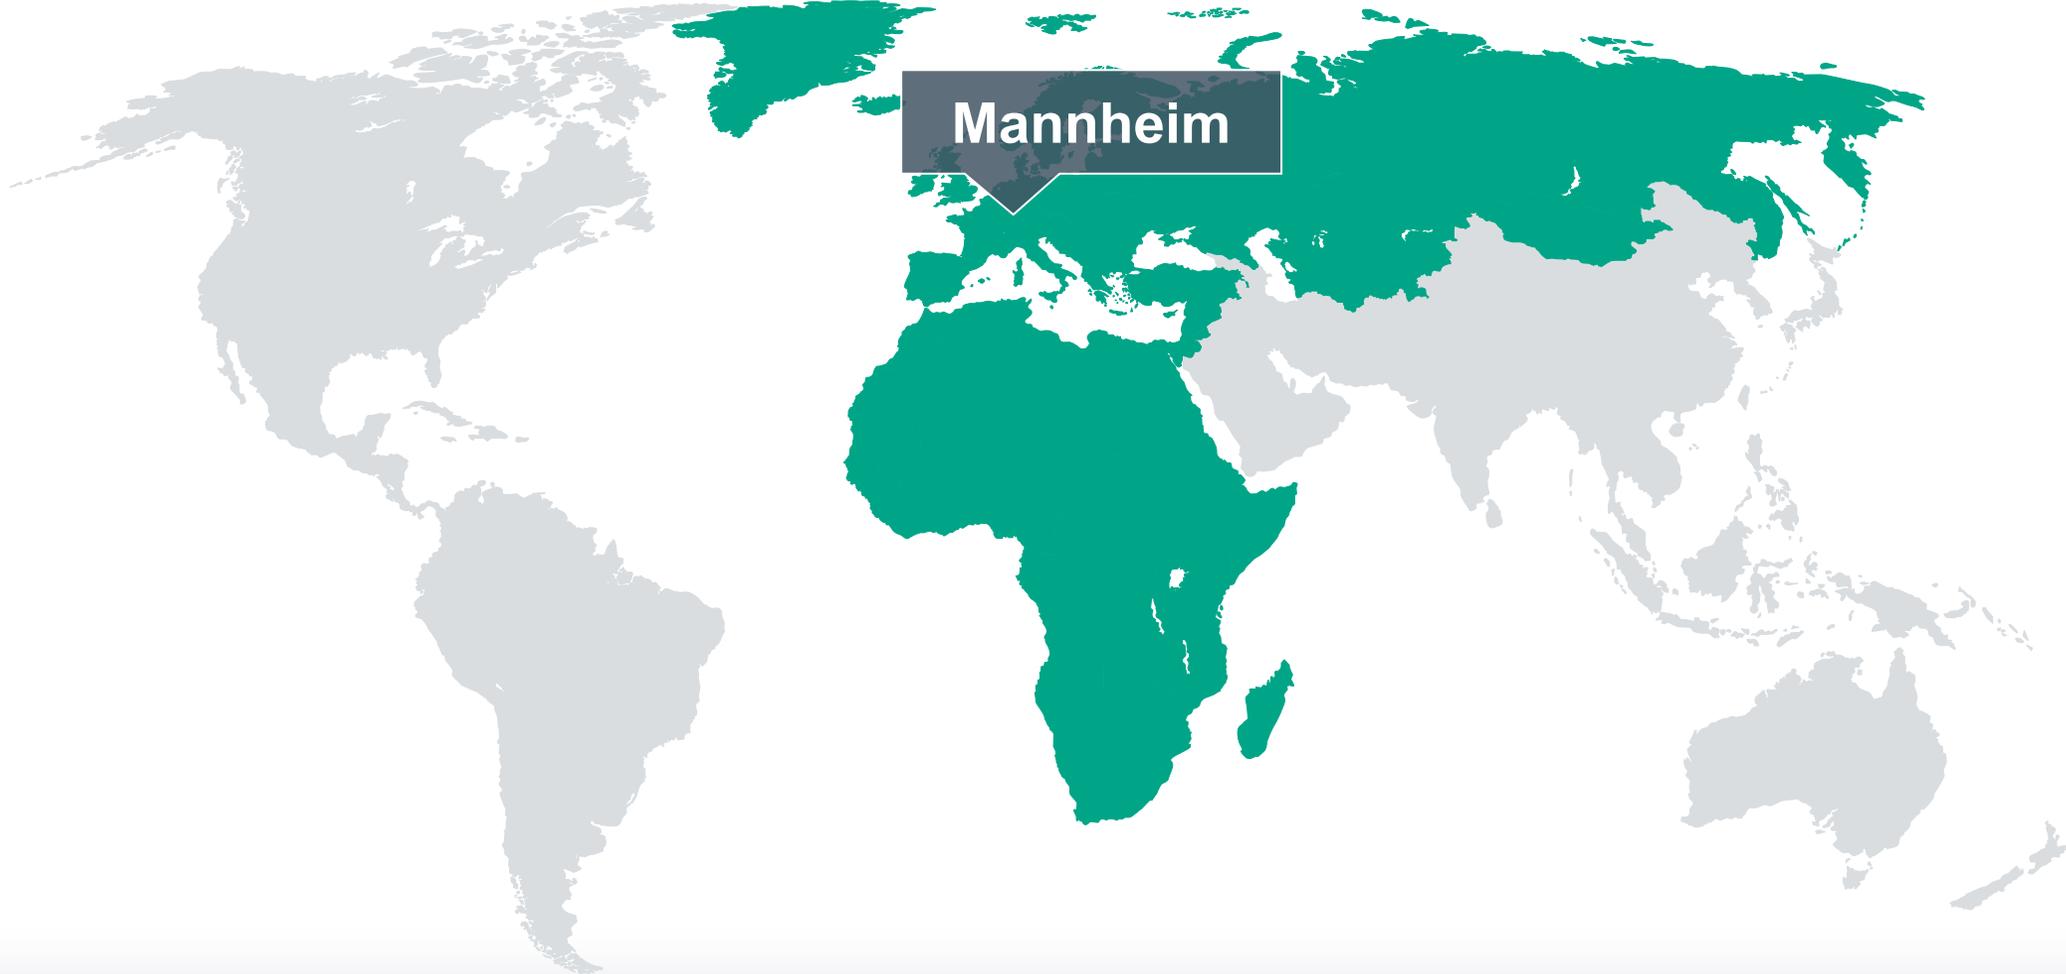

Mio. Euro

# Mannheim 1945

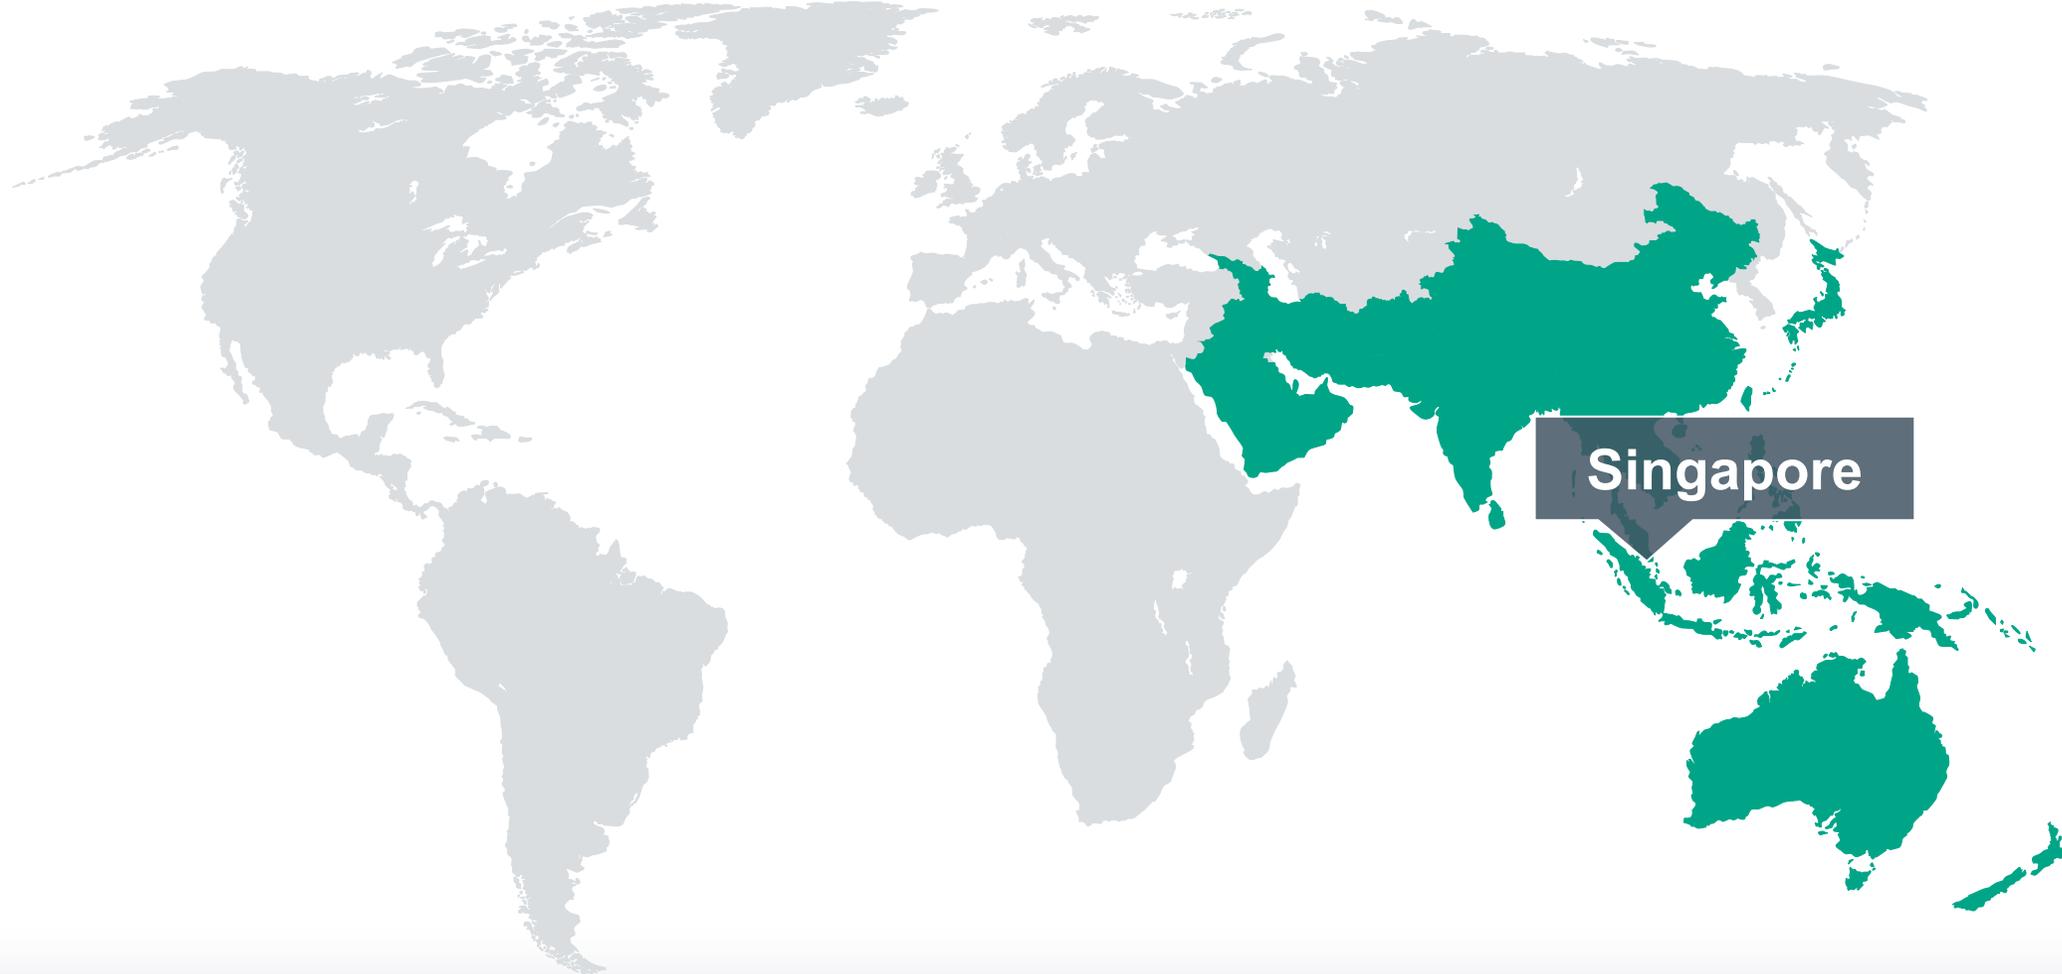

Walter Pepperl and Ludwig Fuchs establish a radio repair workshop in Mannheim.  
The company moves to a larger building in 1970, setting the course for future growth.

# Singapore 1979

Long before globalization, Pepperl+Fuchs establishes its first subsidiary outside of Europe with a production facility in Singapore in 1979.

# Twinsburg 1983

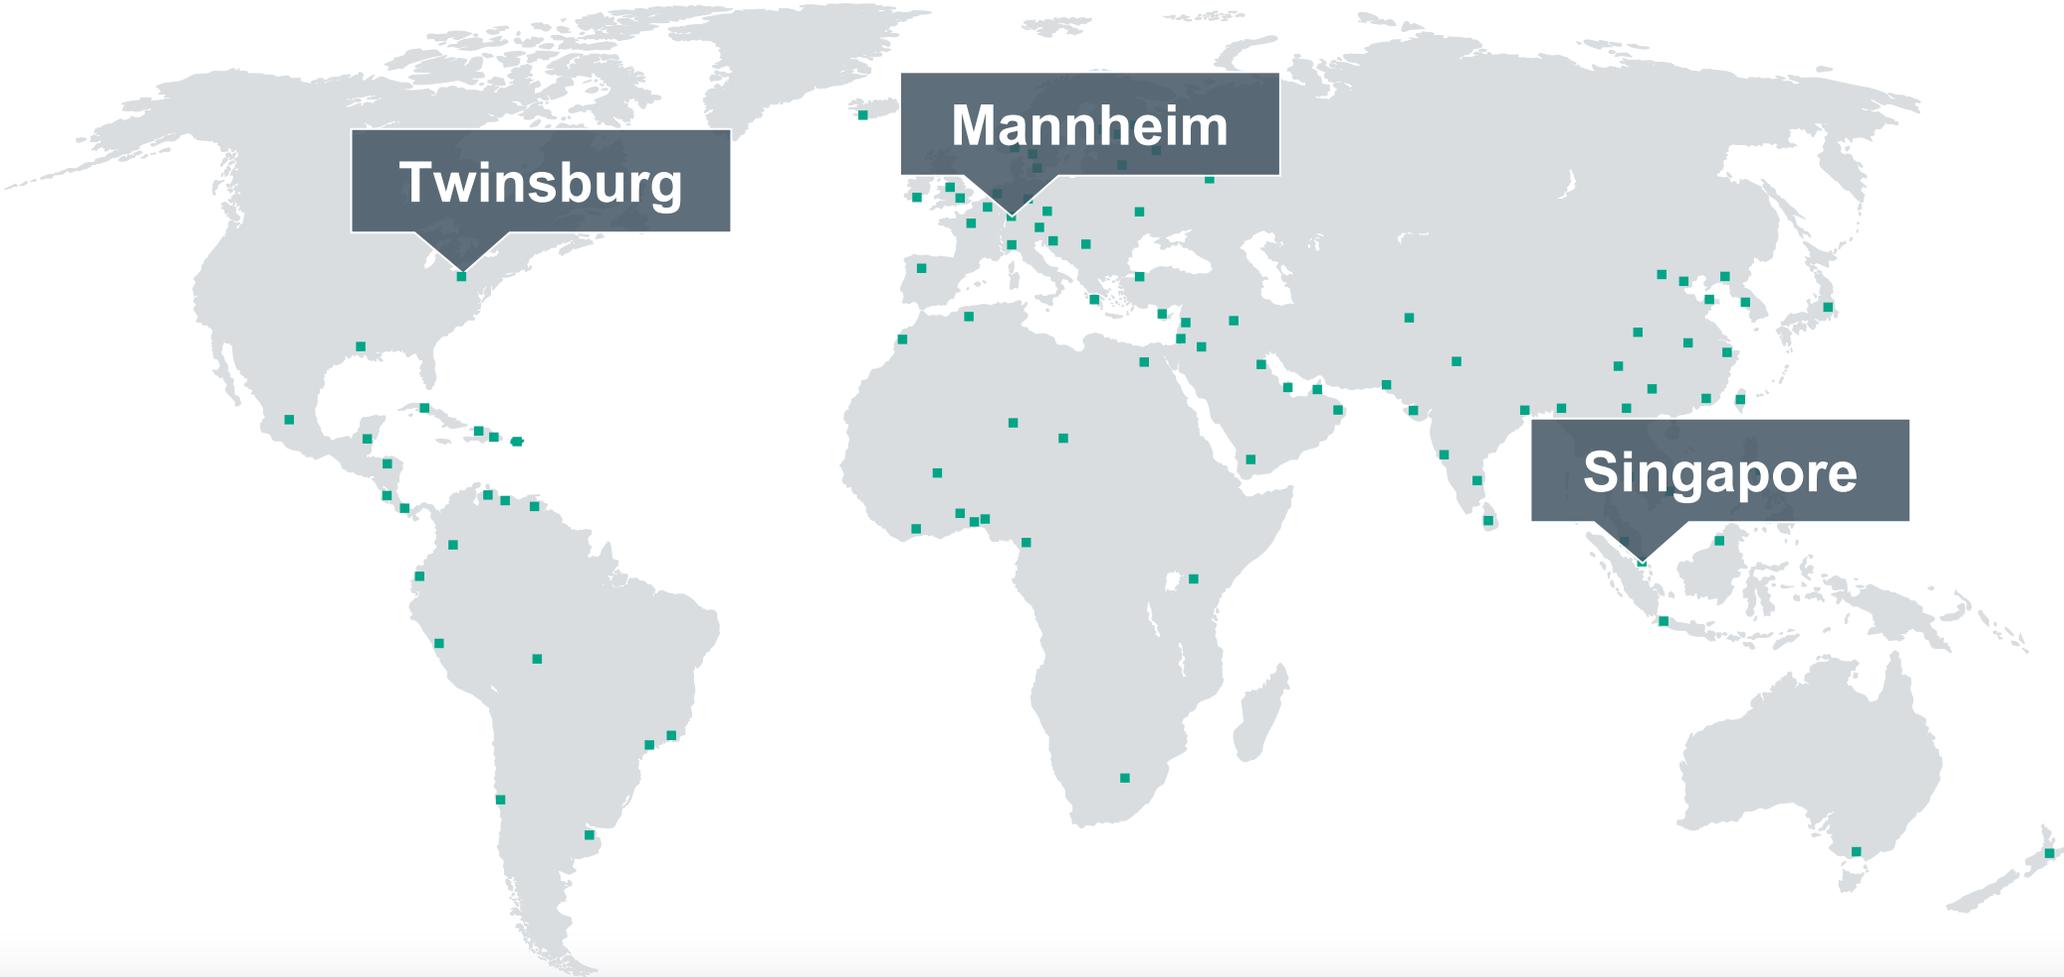

Pepperl+Fuchs makes the leap across the Atlantic, establishing a North American distribution center in Twinsburg, Ohio, in 1983. Today, over 200 employees work there.

# Over 80 Locations Worldwide

With locations in over 80 major cities on six continents, we're there when you need us.

# Manufacturing Locations

Our production locations in Germany, Singapore, Hungary, Indonesia, Vietnam and the Czech Republic are ISO 9001 certified.

Focused competences in five locations

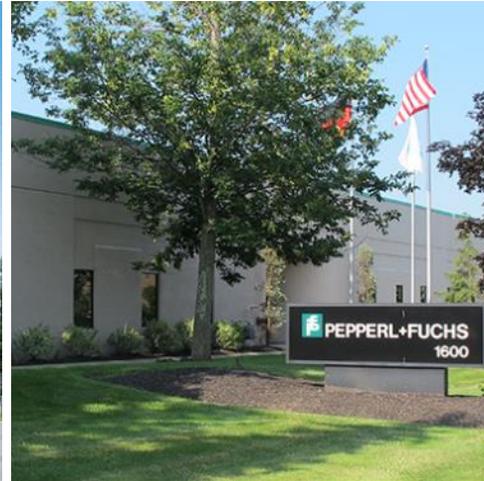

MANNHEIM

- Headquarters of Pepperl+Fuchs Group
- Research and development HQ
- More than 1,000 employees

BERLIN

- Photoelectric sensor competence center
- More than 200 employees

TWINSBURG

- Purge and pressurization systems competence center
- More than 200 employees

ASSAMSTADT

- Mobile computing and communication competence center
- More than 200 employees

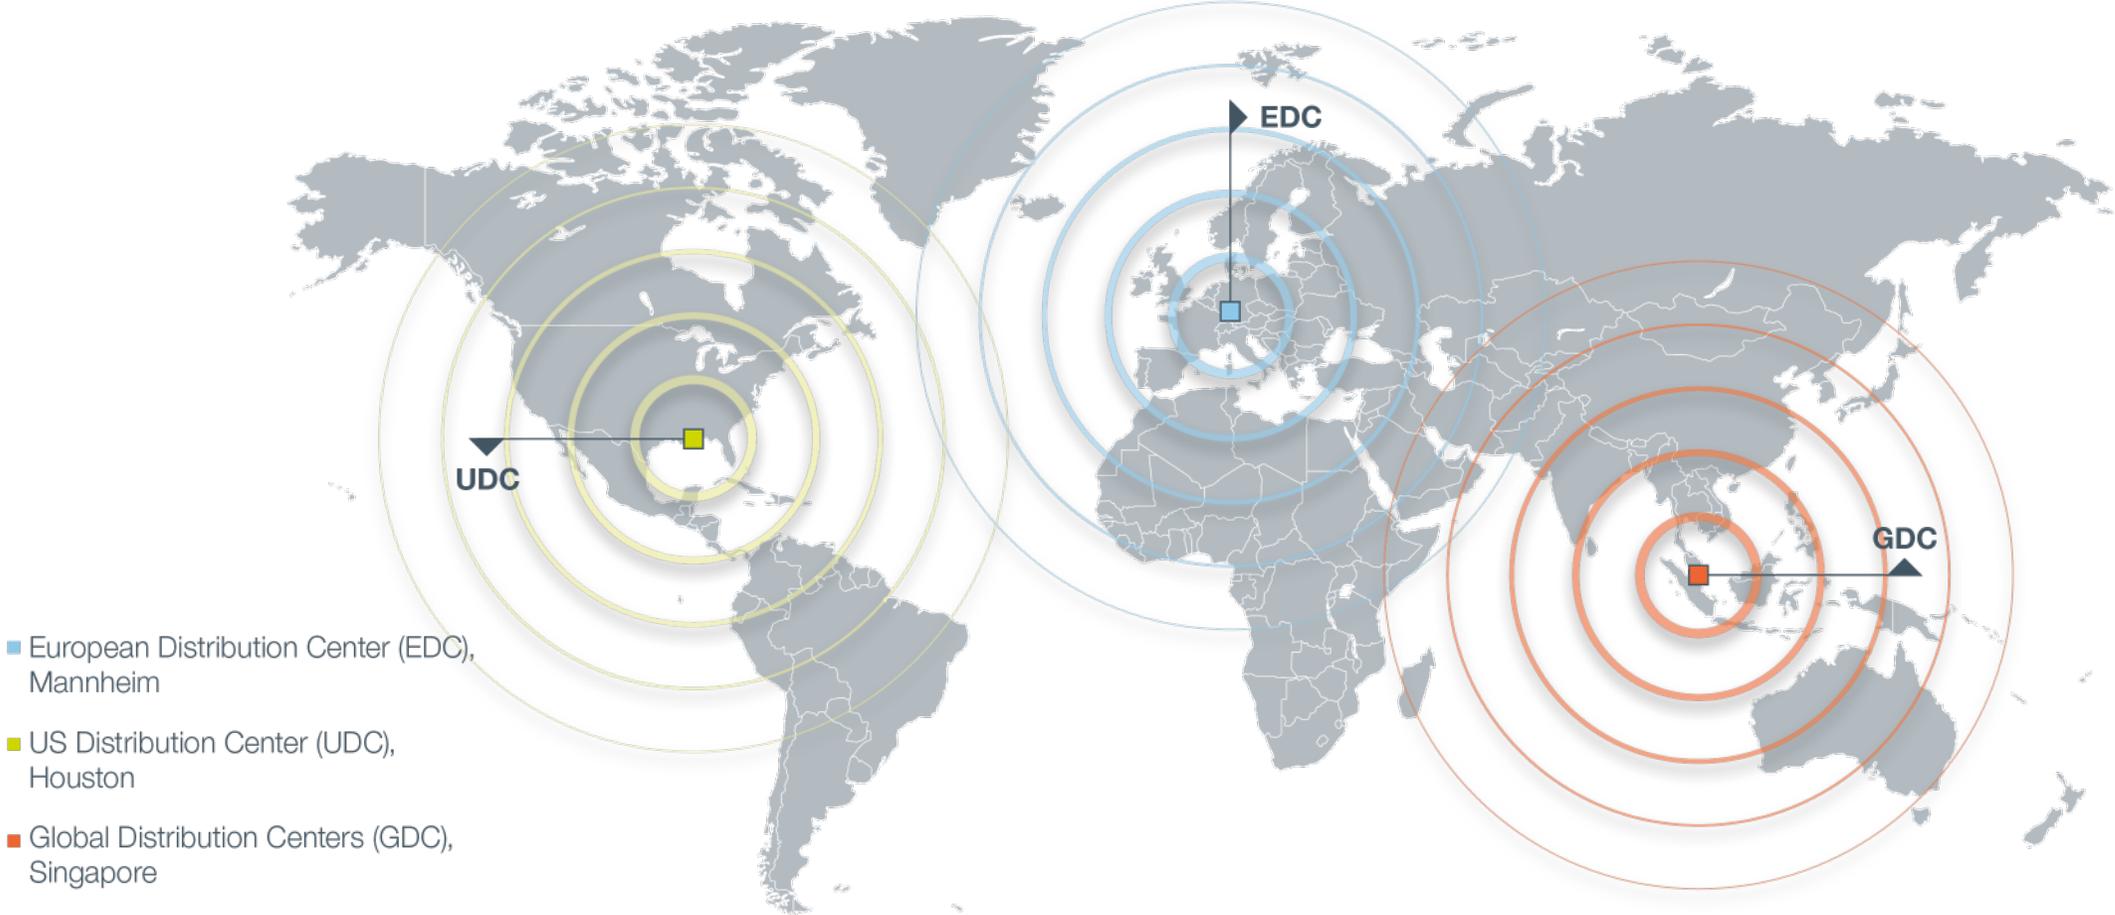

NEUHAUSEN OB ECK

- Rotary encoder competence center
- More than 60 employees

# Pepperl+Fuchs Logistics

Ordered and delivered without delay. Around the clock, we deliver to every country in Europe within two days from our state-of-the-art distribution center in Mannheim.

# European Distribution Center

Automated storage and retrieval system (ASRS) in Mannheim (in operation since 2012)

- Footprint: 4,300 m<sup>2</sup>
- Tray storage locations: 32,000
- Picks per day: 5,000
- Parcels/pallets per day: 1,500

# US Distribution Center

Automated storage and retrieval system (ASRS) in Houston (in operation since 2017)

- Footprint: 2,800 m<sup>2</sup>
- Tray storage locations: 18,500
- Picks per day: 1,700
- Parcels/pallets per day: 500

# Global Distribution Center

Automated storage and retrieval system (ASRS) in Singapore (in operation since 2016)

- Footprint: 6,200 m<sup>2</sup>
- Tray storage locations: 60,000
- Picks per day: 12,000
- Parcels/pallets per day: 250

## Solution

# Industry 4.0 Needs Sensorik4.0®

Pepperl+Fuchs develops technologies and products for the Fourth Industrial Revolution to provide data from intelligent objects and networked machines in the Industrial Internet of Things.

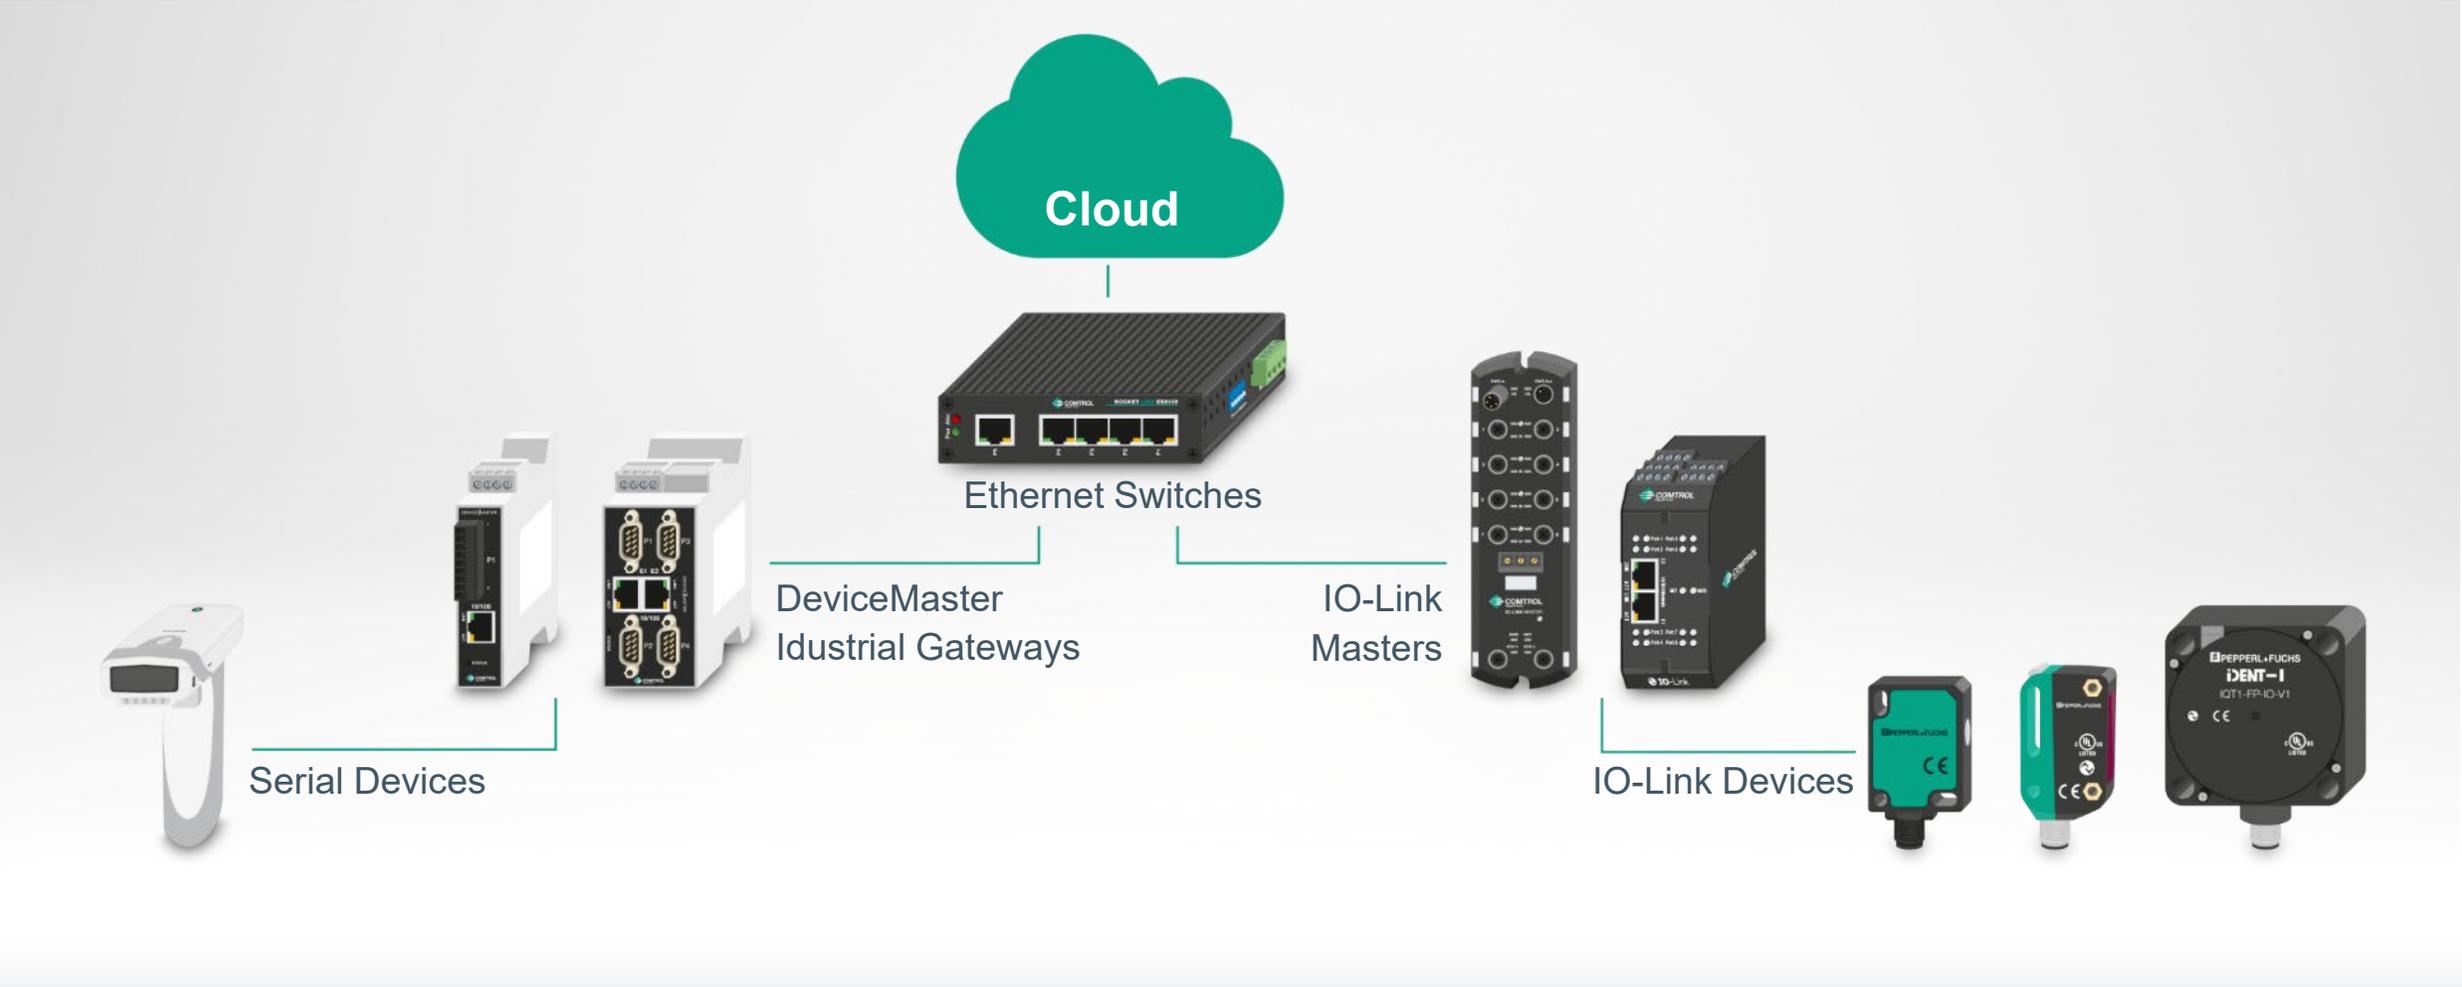

**Sensorik4.0® is a step toward a new generation of sensors:** powerful connectivity, extended functionalities, multi-sensor systems, and value added services

# Sensor to the Cloud

Reliable and transparent flow of data from the field level to the cloud. Pepperl+Fuchs connectivity helps customers to close the gap between the sensor/actuator level and higher-level cloud systems.

# Standout Ideas

## Awards

At Pepperl+Fuchs, exceptional innovative strength is transformed into award-winning products and solutions that will give you a competitive edge.

# Explosion Protection

Process Automation Division

In Explosion Protection, the core competence of the Process Automation division, Pepperl+Fuchs is renowned as a pioneer and innovation driver, offering a complete portfolio for every application level.

# Safeguarding and Connecting Your Process

- Market leading technologies covering all your protection needs
- Global experience ensures our products are designed, engineered, and manufactured in accordance with worldwide international standards
- Reliable partner to hazardous area customers for over 70 years

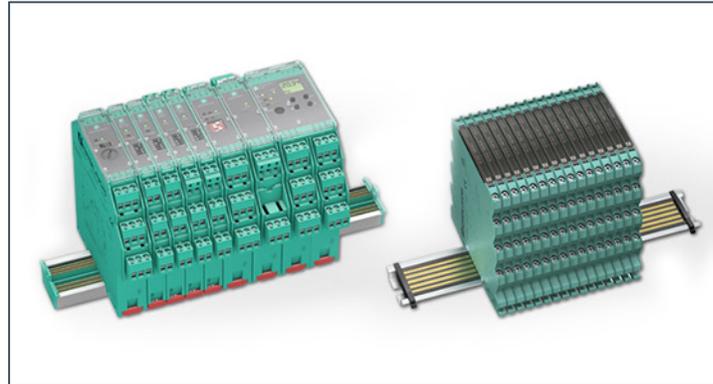

# Traditional Technology Constantly Evolving

Connection and protection of process signals in hazardous areas to control and safety systems

Intrinsic Safety Barriers

Signal Conditioners

Surge Protection

Remote I/O Systems

FieldConnex® Fieldbus Infrastructure

Wireless Solutions

# Explosion Protection Equipment

Hazardous area enclosures, solutions for protection, connection, and control

Purge and Pressurization Systems

Electrical Explosion Protection Equipment

# New Technologies to Change How We Work

Plant digitization, mobile computing, and communications in industrial environments and hazardous areas

# Supporting your process industries

We support your technologies and applications

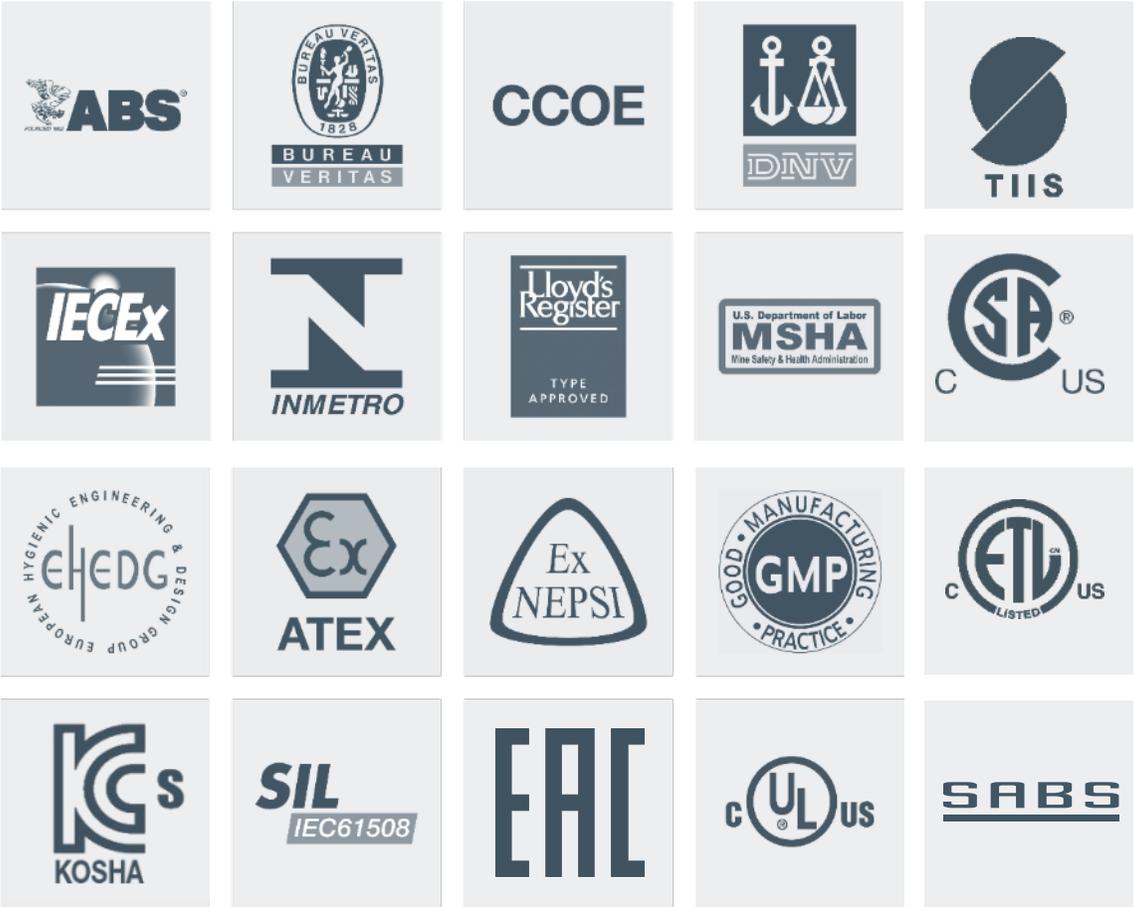

- Oil and Gas
- Chemical
- Pharmaceutical
- Mining and Metals
- Power Generation
- Offshore and Marine
- Aviation
- Wastewater
- Food & Beverage

# Certified to Make Your Industries Safe

Global certifications for global markets

# Providing Customized Solutions

Innovations in hardware and software

Customized engineered solutions using our explosion protection technologies

Mobile computing and communications in industrial environments and hazardous areas with customer software tools to streamline enterprise implementations

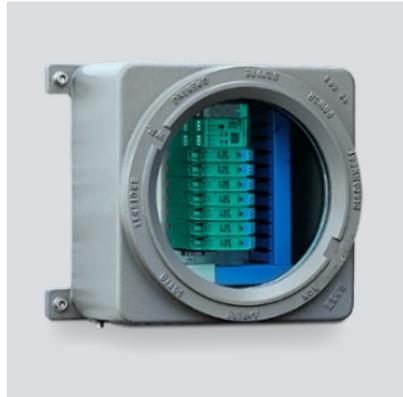

# Solution Engineering Centers

In close cooperation with our worldwide customers, we design and manufacture application-specific system solutions, covering all types of explosion protection.

Germany

Italy

China

Australia

USA

India

- Solution Engineering Centers close to the user, all over the world
- Expert knowledge on protection against explosions and environmental hazards
- Full support from project specification to operation in the plant

# Shaping the Future of Automation

By following our digital agenda

- We develop smart products and processes to help our customers' digital transformation
- We invest in smart production processes to increase our efficiency and product reliability

# Leading Functional Safety Solutions

From a partner you can trust

- Over 10 Million SIL products installed globally
- Products rated SIL 2 and SIL 3, independently tested for IEC 61508 and IEC 61511
- Latest products incorporate 1oo3 architecture, line fault transparency, and diagnostic technology to provide maximum safety and reliability
- Tested with major control systems for compatibility

# Why Pepperl+Fuchs Is Your Ideal Partner

Dedicated Local Support  
*Close to you*

Global Warranty  
*Products are supported worldwide*

World Leading Innovative Products  
*Technology leaders*

Global Hazardous Area Expertise  
*Local approvals*

Leader in Safety  
*Live and work safely*

Meets Global Quality Standards  
*We manufacture what we design*

Reliable Long-Term Partner  
*Supporting customers for over 70 years*

Distribution Centers  
*Products delivered directly to you on time*
